

# **Sybase iAnywhere**

## **iAnywhere Validated Device List**

### **iAnywhere Mobile Office, OneBridge and Afaria**

#### **Last Updated: May 31, 2009**

**Validated Devices to date: 295**

**L1 Validated Devices: 219**

**L2 Validated Devices: 76**

#### **Validated Device Level Support**

**Sybase iAnywhere offers two levels of device support in order to provide customers the greatest number of validated devices.**

##### **Level 1 Device (L1):**

A Level 1 device is the exact device certified by Sybase iAnywhere. A Level 1 device is built on the same hardware platform, has the same operating system loaded on it, and runs the same ROM version as the device certified by Sybase iAnywhere.

##### **Level 2 Device (L2):**

A Level 2 device is built on the same hardware platform and has the same operating system loaded on it as its Level 1 counterpart on the Information Anywhere Validated Device List. The device is not running the same ROM version as the Level 1 device certified by Sybase iAnywhere. In the event that an issue is identified on an L2 device additional time may be required to resolve the issue.
